

RISKS

Threat N°1: Hiring the wrong lead tech

- action:
- Multiplying job interviews to find the right fitted candidate
 - Contact previous employer
 - Technical test
 - Having a back up candidate in case our lead tech quits for any reason
 - Outsource the job through software firms
 - Setting up a back up plan if our tech lead cannot work from office (remote)

Threat N°2: Not completing project on time for showcase

- action:
- Reach milestone on time through agile methodology
 - Encourage extra hours
 - Weekly follow-up
 - Prioritize and rush the critical steps
 - Encourage weekly one on one for team building and avoid the intern to fall behind
 - Compare status of the task with the global planning

Threat N°3: Competitor releases and showcases the same product before us

- action:
- competitive intelligence
 - define which companies are likely to work on the same project
 - Downgrade project features in emergency
